### Build to Last

The outer headband comprises a finely stitched genuine leather combination selected for its long-lasting yet subtle qualities, with the adjustable inner headband covered in a soft finishing for unrestricted comfort.

### Designed to Perfection

H50's double-layered ear-shells are engineered from aluminum to reduce resonance and vibration, bringing you genuine precision and superb sound detail.

## Discovery **H50**

### Tuned for Clarity

H50 has a semi-open back architecture for deep, solid bass reproduction, a fine woven fabric to control sound leakage, and optimally vented 40mm neodymium drivers to deliver controlled bass, transparent mid-range and refined high frequencies.
